LEARN TO FLY!

WHAT'S NEXT? SKYDIVE SOLO!

STATIC LINE

Ground School & 1st Jump - only £199

When doing a static line jump, your parachute is deployed automatically by a cord attached to the aircraft.

The course starts with a 6 hour training day. You will then be ready to take to the sky on the next jumpable day

As you progress through this course your jump altitude will increase and in the last levels you will deploy the parachute yourself.

You must complete a minimum of 17 jumps to achieve your *A* license.

ACCELERATED FREEFALL

Ground School & 1st Jump - from £375

The 'cool' way to learn to skydive. Your first jump will be from 15,000ft with two instructors holding on to you, giving you guidance throughout the skydive.

You will receive a minimum of 6hrs ground tuition, covering all safety aspects; equipment, exiting the aircraft, control in freefall, how to fly and land your parachute.

On completion, you will have the skills and knowledge needed to make you a safe and confident first time skydiver. Your jump will take place on the next jumpable day.

You must complete a minimum of 18 jumps to achieve your *A* license.
